Dear M.....

My name is Geza Tarjanyi and I currently have two investigations I would like to make you aware of.

The first is the IOPC investigation into the Metropolitan Police for victimisation and intimidation of a witness, and failing to investigate evidence provided, in order to bring those guilty to justice.

The other is failure of the Met to investigate the RECOVERY TRIAL REPORT which I believe is the smoking gun which will explain the reality of the fraud inflicted on our country and her people.

I have been arrested 14 times, and faced many thousands of pounds in ACRO fines for attempting to speak to the government and their experts to find a remedy to end the lockdowns by broadening their depth of knowledge of other scientists and experts ignored by Matt Hancock, Chris Whitty and SAGE.

01-10-2020, I spoke to Chris Whitty, I asked him (quote) "why are you not promoting Hydroxychloroquine? Because if we did, that cure alone would stop all this that is going on!" (It had proven successful by the likes of Doctor Zelenko in the USA listed in a letter to President Trump 07-04-2020)

He suggested I look at the RECOVERY TRIAL STUDY that he said (I quote) "working on trials, the trials are really clear on it unfortunately. The recovery trial is worth looking at, just look at the recovery trial data."

I was arrested on 'freedom day' 19 July, 2021, accused of harassing both Jonathan Van-Tam and Chris Whitty, both charges dropped. This meant I was innocent and my questions were valid. I then insisted that Chris Whitty and the RECOVERY TRIAL should be investigated. Can I request any MP or Minister, who may have evidence that could aid this investigation to please quote Crime No 6528890/21 and copy me in on any correspondence to the email provided above for my legal team?

The Study was overseen by RECOVERY Central Coordinating Office: Nuffield Department of Population Health, Richard Doll Building, Old Road Campus, Oxford, OX3 7LF <https://www.recoverytrial.net> who are now also studying Ivermectin. (Another cure used successfully in countries around the world against covid-19) Question is, will they overdose the volunteers/victims by 10x the safe dose to undermine it like they did with HCQ? We had a safe and effective cure against covid-19 known by April 7th 2020. Oxford/AstraZeneca are now damaging more lives with the vaccine that could have been saved by a cure that was criminally undermined by doctors, Experts linked with the RECOVERY TRIAL.

Provided with this letter are the numbers from the World Health Organisation of the horrific toll of this vaccine program, in contrast to other safe remedies that were extensively tested before being allowed to be prescribed.

Enclosed is a leaflet I created that was ripped up by Richard Madeley on GMB when he was informed by Dr Hilary that the information contained could stop people from being vaccinated. True informed consent is about having all the available data before you decide what you allow to be injected into your body.

Wednesday morning from 9am 24 November, I will be at the protest pen (Across from Downing Street) to challenge the Met Police to either arrest me or investigate the criminals, not the victims of the biggest crime ever against the British people. I want people to have some hope and faith in our democracy and know that their MP really represents them and will investigate all crimes against the people and do all in their power to protect them from the tyranny they now face.

The sixty Conservative back benchers (The late Sir David Amess was one) who are heroically defending against the threat of health pass ports, unnecessary lockdowns and restrictions, show more opposition than Kier Stammer, who fully supported the destruction of our economy and lives by his support of unconstitutional lockdowns and self-isolation under the claim it was to save our NHS.

It is damning when at least 10% are leaving the NHS and social care because (in their professional opinion) they know the vaccines are a danger to their health and wellbeing. This alone should create debate among all parties in order to ascertain the truth and find a solution and make those who have created so much suffering and damage be investigated and held accountable. I am a lawful, peaceful man who wants to do all in my power to protect all and honour the sacrifice of those we saluted earlier this month 11 November. I invite any MP to please show support in this endeavour on Wednesday morning.

Sincerely Geza Tarjanyi
