

OPEN LETTER

Letter of Notice to Metropolitan Police Commissionaire Cressida Dick

4 December 2020

Ms Dick

My name is Geza Tarjanyi and I am today putting you On Notice that I intend to bring criminal charges against you for perverting the course of justice (under common law) and for upholding the treason of the British Prime Minister and his government by instructing your officers to unlawfully assault, arrest and charge innocent citizens and, by association with the said traitors, for your unlawfully causing damage to livelihoods and businesses on the back of fraudulent evidence that Covid-19 is a dangerous pandemic.

Your failure to investigate this organised mega-crime and the lies driving it is crushing our economy and people's spirit, causing widespread alarm, distress and even deaths of many thousands of British men, women and children, not to mention destroying our NHS by stopping lifesaving treatments and surgeries.

I will be demanding the immediate suspension of your role as Metropolitan Police Commissionaire for gross misconduct in office until we have a full and independent Inquiry into your role in prolonging the suffering of the British public and specifically your incitement to your force in August to "embarrass those not wearing masks." This is both mental and disability discrimination and it is a damning indictment of this government, the London Mayor and the media that no outcry was heard.

It is also remarkable that your force has been virtually Covid-free as you attest.

Although there have been many crimes and much malpractice under your watch as Police Commissionaire, I would like to focus on one that was printed on the back of my latest unlawful arrest for standing up to the treason of our government, led by Boris Johnson and in anticipation of further police action against me, especially since your Deputy, Neil Basu has branded 'anti-vaxxers' terrorists and accuses us of radicalising the youth of Britain.

This means that, according to the latest Coronavirus laws passed by this corrupt government (supported by Labour) I can now be interrogated, raped, murdered and buried with no coroner investigation or autopsy.

This Police Advisory Notice (PAN) was handed to me after my 5th arrest, as a warning to scare me off from exposing the traitors in government being protected both by your unlawful actions against us and unprofessional inaction on the part of Boris Johnson's government and his medical advisers. A copy of the document is provided with this letter.

Re. Perverting the Course of Justice (see PAN)

'Under Common Law, it is an offence to commit to conspire, act or embark upon a course of conduct which has a tendency to, and is intended to pervert, the course of public justice.

Some of the ways where conduct is capable of amounting to the above offence is by making false allegations, committing perjury, concealing offences, obstructing the police, assisting others to evade arrest, failing to prosecute, interfering with witnesses/evidence/jurors and publications of matters calculated to prejudice a fair trial.'

In a 'Reasonable Request' handed to your officers the early hours of 21 August 2020 at the Protest Pen across from Downing Street (copy of letter enclosed with this Notice) evidence was included that you were then in full knowledge that Covid-19 was not as contagious or deadly as we were led to believe by SAGE, including advisers Chris Whitty and Sir Patrick Vallance.

Amongst the matters listed in the Reasonable Request:

*Your officers are packed in the back of OSU vans, for many hours with no masks and less than six inches apart yet I believe up to that date there have been no deaths FROM Covid-19;

*No one self-isolating for 14 days having been in contact with a person believed to have Covid-19;

*It also stated that the police had no faith in the track & trace system 'noting' that data was going to private companies like SERCO (who I might add run many of our police stations and prison services, the horse has already bolted on that one).

This has now been used to self-isolate our bumbling PM (so much for Official Secrets Act when the PM is on the SERCO database!)

It also contains an article from Sky News listing concerns by the police that the track & trace system could put lives and investigations at risk and close whole stations. But it seems to be quite OK for the public!

You now have a choice to do the dignified thing and step down and allow a more competent ranking police officer to investigate the fraud and corruption of Downing Street and Westminster, or to begin doing your job and save some of your dignity by protecting the victims and not the criminals.

You now have limited time as by next week I will be bringing a Class Action against those complicit in crimes against the British people, including fraud, Treason, malfeasance and misfeasance in office and the genocide of many thousands of innocent people.

I am demanding an investigation into Chief Medical Officer Chris Whitty's and the SAGE team's links to the Recovery Trial which found the main remedy for Covid-19, Hydroxychloroquine (HCQ) to be ineffective when it has since been well-publicised that victims who took part in the trial were deliberately given overdoses of HCQ in order to undermine the validity of this proven safe drug as a remedy for Covid-19, if taken in the first five days of diagnosis. Conversely, the instructions put out by Boris Johnson, Matt Hancock and the SAGE team were for patients to be sent home to deteriorate until the NHS had no option but to return them to hospital and place them in ICUs with very low prospects for recovery; if they did survive they would have suffered long-term damage to lungs and other organs.

HCQ can also be successfully used as a prophylactic thus vulnerable people could be protected.

A propos HCQ, I draw your attention to the enclosed letter sent to Boris Johnson putting him On Notice of Liability for any deaths pursuant to his continuing to withhold HCQ from the public. It therefore behoves you to bring charges against him for all subsequent deaths from Covid-19 when he knew full-well they were preventable.

Also included with this Notice is a letter dated April 7 2020 to Donald Trump, The President of the United States from Dr Vladimir Zelenko, Board Certified Family Practitioner (New York)

In bullet points 5 & 6 of the letter Dr Zelenko states:

5. My field-tested treatment regimen for *high risk patients* with clinical diagnosis is as follows:
- Hydroxychloroquine 200mg twice a day for 5 days
 - Azithromycin 500mg once a day for 5 days
 - Zinc sulfate 220mg (or equivalent of 50mg elemental zinc) once a day for 5 days.
6. I also suggest the following prophylactic regimen for *very high risk individuals*:
- Hydroxychloroquine 200mg once a day for 5 days, and then 1 pill a week until immunity can be shown or vaccine becomes available.
 - Zinc sulfate 220mg (or the equivalent of 50mg elemental zinc) once a day for 5 days, and then one pill a week until immunity can be shown or a vaccine becomes available.

This prescription has been endorsed by many brave front-line doctors in the USA, here in Europe and across the world.

The fact that there is a remedy for Covid-19 which has been withheld from the public means that the lockdown and imprisonment of the British people is illegal and the crushing of our economy and multiple small businesses a crime. Moreover, the threat of toxic vaccines being tested on the people of Britain has to be parried before any harm is done by a company such as Pfizer which is indemnified from any prosecution for the harm caused by its vaccines, despite having already pleaded guilty and paid out \$ billions in fines.

I have been arrested on six occasions now after stating I am a flesh and blood human being and I have caused no one harm or injury and there are no victims of any of my actions.

I have stated that I have never resisted arrest and that I intend to beat Boris in court but have never been charged. So it looks unlikely that this will happen and it proves to me that the government fears the truth and the facts being heard in my defence.

You can save the public purse by arresting Boris Johnson and Matt Hancock from doing any more harm and charge them with working with foreign powers and groups to destroy Britain for the interests of globalists such as the Bill and Melinda Gates Foundation and Big Pharma and their associates to drastically reduce the world population and enslave the remainder.

This is all documented in Klaus Schwab's book The Great Reset and is a global takeover of our goods, property and rights, to then be controlled by the few.

This is a planned attack on Britain, not an out-of-control pandemic, promoted by our government and controlled media such as the BBC and Guardian newspapers.

I am putting each of the Commands linked to my arrests On Notice as having caused alarm and distress by undermining our rights and freedoms to demonstrate at our peaceful, lawful and respectful rallies. WE THE PUBLIC are now the only opposition to Boris Johnson's corrupt government, Labour being in full support of the Covid-19 measures hence likewise complicit in treason against the British people. The Labour Party should be investigated for their links with foreign powers and bodies influencing their failure to challenge Boris Johnson and Matt Hancock and protect their constituents and the public.

This is because at the moment Pfizer who have been fined billions in fines after pleading guilty are above the law and their vaccines are indemnified against prosecution by our government.

- Article featuring Neil Basu : Metropolitan Police counter-terror chief Neil Basu calls for action on coronavirus anti-vaxxers
Britain's top counter-terrorism officer today called for a nationwide debate on the introduction of new laws to punish people who spread anti-vaccination conspiracy theories.
Extract Mr Basu stopped short of endorsing the idea of a new law but his intervention will strengthen pressure on ministers to act against conspiracy theorists making false claims about the vaccines.
"There is a debate for society to have about free speech and responsibility and people who are spreading misinformation that could cost people's lives... whether that is the correct thing for this society to allow to happen," said Mr Basu.
Officials said that one reason for Mr Basu's concern was that Islamist and far-Right groups were using false claims about coronavirus to radicalise followers. If damaged-Vaxxers are classed as extremists is setting a very dangerous description and reactions of the police when overseeing our political rallies.

Letter to London Mayor from Piers Corbyn and links to supporting evidence
Extract from letter

- Mr Sadiq Khan
Mayor of London
City Hall,
London SE1
Dear Sir and Madam

Re:Concern for Police brutality towards peaceful protestors during pandemic – FORMAL COMPLAINT

I refer to the above and to my e mail sent to you both of even date which I also copied to a raft of other organisations specifically a raft of legal challenges to the government and the IOPC with regard to a public social media request from Piers Corbyn to be sent to Sadiq Khan in his capacity as MAYOR OF LONDON. There is significant concern that BLM and XT = Extinction Rebellion) are allowed free passage to create mayhem in London streets - televised by media - and the Police (controlled by who?) not engaging with chaos and violence of these protestors (which I do not condone) indeed IGNORING violence by these extremists. Conversely, peaceful protestors were met with BRUTAL VIOLENCE by the Police on Saturday's medical whistle blowers Trafalgar Square event held on 19th September 2020. Please be advised that this is now referenced as "London's Tianaman Square" (stet) by the international press who report on such brutality Please respond.

Enough people at the event are coming forward as witnesses and this will be evidenced by formal complaints of brutality towards PEACEFUL PROTESTORS including families, women and children and certainly expecting mothers. Please respond.

My final statement

I have provided a leaflet for my upcoming political Rally that will start from Hyde Park on Saturday, Meeting from 12pm to march as soon as we are ready. We will end up at Downing Street. This has been facilitated by the police on the 3rd 10th and 19th October when we peacefully walked from Hyde Park to Downing Street. I will follow the guidelines and directions that have already shown that no one is threatened or at risk with the aim to show that we are not going to live under a PM and Parliament of traitors. We are the PUBLIC and we are now the only opposition against Boris Johnson and his ministers. If any harm or threat should come to any that attend our peaceful rally on Saturday, 5th 12th 19th December. I shall hold you personally responsible and use the full weight of the law to bring charges against you and your estate for Perverting the Course of Justice. You are in office to uphold the law to protect the victims (which is us) and arrest and convict the criminals (which are Matt Hancock, Boris Johnson and their associates).

All the above named by law have a duty of care, if they harm anyone once they know the dangers, they are liable for criminal charges and can go to prison. This goes right up to the Prime Minister. You have now been provided with enough evidence to charge the guilty and protect the British public from avoidable harm.

Signed
