Dr. James Lyons-Weiler - Pennsylvania Medical Freedom Press Conference 20/10/20 - opposing Covid vaccine mandates and medical care discrimination

🧐 Vaccines for coronaviruses have a terrible safety record

🧐 21% serious adverse reactions on the Moderna Vaccine Trial (others haven't published their data!!)

🧐 Ventilators killed more than they saved

🧐 Pathogenic priming disconsidered during trials

🧐 Public health officials keeping people in fear

🧐 A disproportionate response given the mortality rate

🧐 Unsafe epitopes REMAIN in the vaccines

🧐 FDA allowed the most important stage of trials to be skipped

🧐 Public health has been politicised at the detriment of the public

🧐 Bribes offered in the national vaccine injury compensation programme to change testimony

CORRUPT TO THE CORE!!!!!!
