**Report vaccine side effects: 0808 100 3352
Or visit www.yellowcard.mhra.gov.uk**

**The government has a Duty of Care to inform the public of
adverse effects supported by the latest data**

Latest information from. World Health Organization, European Advisory Group of Experts in immunization, former Vice President Professor Christian Perronne said that all vaccinated people must quarantine over the winter months or risk serious illness.

Confirming the rapidly deteriorating situation in Israel and UK, the infectious disease expert stated "Vaccinated people should be put in quarantine, and should be isolated from society

He went on say "Unvaccinated are not dangerous; vaccinated people are dangerous for others. It's proven in Israel now – I'm in contact with many physicians in Israel – they're having big problems, severe cases in the hospitals are among vaccinated people, and in UK also, you have the larger vaccination program and also there are problems"

The current working group on COVID-19 pandemic in France was reported to be "utterly panicked" on receipt of the news, fearing pandemonium if it follows the guidance of experts.

Israeli doctor Kobi Haviv told Channel 13 News "95% of seriously ill patients are vaccinated. Fully vaccinated people account for 85-90% of hospitalisations. We are opening more and more COVID branches. The effectiveness of vaccines is declining or disappearing.

British Medical Journal 03-09-2021: The UK's Joint Committee on Vaccination and Immunisation (JCVI) has not recommended that all young people aged 12-15 are given the covid-19 vaccination.
